SCREEN LIST

Hospital Booking System for the Outpatient Department

Team Aura | Version 1.0 | 4 November 2026

1. Purpose and Scope

This document defines the screens requires for the Hospital Booking System prototype. Each screen is associated with an actor, a purpose, and one or more functional requirements (FRs). The Screen List is intended to guide prototype implementation and maintain traceability between requirements and user interface screens.

2. Main Screen Index

Screen ID	Screen Name	Actor	FR Mapping	Brief Description
SC-01	Sign In / Register	Patient (Register) / Patient and Admin (Sign In)	FR-8	Sign-in and patient registration screen (shown in the same layout with mode switching)
SC-02	Restricted Account Access	Patient with a suspended account	FR-7, FR-8	Displays Banned status, reason/contact information, and service restrictions
SC-03	Patient Overview	Patient	FR-1, FR-2, FR-3, FR-8, FR-9	Overview of account, next appointment, token, and doctor listings
SC-04	Find a Doctor	Patient	FR-1	Search doctors, filter by specialty, and view doctor information / available schedules
SC-05	My Appointments	Patient	FR-2, FR-4	Appointment list and history, with cancellation/rescheduling/follow-up actions according to status
SC-06	Token Queue	Patient	FR-3	Displays only the signed-in patient's token and appointment status
SC-07	My Profile	Patient	FR-8	Displays and edits name, email, and phone number, together with account status
SC-08	Admin Dashboard	Admin	FR-6, FR-7, FR-9	Statistics for appointments, queue statuses, doctors, and patient accounts
SC-09	Admin Appointments	Admin	FR-6	Searches and filters appointment records in read-only mode

SC-10	Patient Accounts	Admin	FR-7	Searches patient accounts, views status, and performs Ban/Restore access
SC-11	Doctors & Schedules	Admin	FR-5	Searches, adds, edits, and removes doctors from booking visibility, including schedule management

3. Screen Details

SC-01 — Sign In / Register

Users: Patient and Admin Related FR: FR-8

- Sign In: Enter an email address and password to access the system.
- Register: Enter a name, email address, phone number, and password to create a Patient account.
- Users can sign in using Demo Patient or Demo Admin accounts and view the demo credentials.
- The prototype simulates sign-in and stores data in browser storage; it is not a production authentication system.

SC-02 — Restricted Account Access

Users: Patient with Banned status Related FRs: FR-7, FR-8

- Displays the message “Account access is restricted” and the account status.
- Displays the Reason / support information based on the reason entered by the Admin, or a message advising the user to contact hospital administration.
- Informs the patient that booking and rescheduling are unavailable while access is restricted, and that existing appointment records remain.
- Provides a Sign out button.

SC-03 — Patient Overview

Users: Patient Related FRs: FR-1, FR-2, FR-3, FR-8, FR-9

- Displays the patient’s account status.
- Displays the counts for Upcoming appointments, Doctors available, and Completed visits.
- Displays the next appointment details, including doctor, specialty, date, time, department/room, token, and status, if an appointment exists.
- Displays the patient’s upcoming queue number and does not disclose other patients’ tokens or queue positions.
- Displays a selection of doctors and navigation links to Find a doctor / My appointments / Token queue.

SC-04 — Find a Doctor

Users: Patient Related FR: FR-1

- Search for doctors by name or specialty.
- Filter the list by specialty.
- Displays only Active doctors with profile information in the Doctor card.
- Select a doctor to open the Book an appointment window and choose an available date/time.

SC-05 — My Appointments

Users: Patient Related FRs: FR-2, FR-4

- Displays appointments belonging to the signed-in patient, ordered by date and time.
- Filter by All appointments, Upcoming, Completed, and Cancelled.
- Displays Token/Booking, Doctor, Date & time, Reason for visit, and Status.
- Appointments with Waiting status provide Reschedule and Cancel actions.
- Appointments with Completed status provide a Book follow-up action.
- For Called or In Operation status, the screen advises the patient to contact staff instead of cancelling or rescheduling.

SC-06 — Token Queue

Users: Patient Related FR: FR-3

- Displays the patient's token for the next appointment, together with the doctor's name, specialty, department, date, time, and status.
- Displays status-specific guidance, such as Waiting, Called, or In Operation.
- Does not display the token currently being served or other patients' queue positions.
- If there is no upcoming appointment, displays an empty state and a link to Find a doctor.

SC-07 — My Profile

Users: Patient Related FR: FR-8

- Displays the patient's name, email address, phone number, role, account status, and appointment count.
- Allows editing of Full name, Email address, and Phone number.
- Saves the information using the Save profile button.
- The prototype indicates that changes are saved for the browser prototype.

SC-08 — Admin Dashboard

Users: Admin Related FRs: FR-6, FR-7, FR-9

- Displays Total appointments, Waiting, In progress, and Completed.
- Displays Active doctors, Registered patients, Active accounts, and Banned accounts.
- Displays Recent appointments and Patient account summary.
- Displays Appointment status distribution for monitoring purposes only.
- Provides navigation to Appointments and Patient accounts.
- Admin can view information only and cannot change appointment statuses or control the queue.

SC-09 — Admin Appointments

Users: Admin Related FR: FR-6

- Displays appointment records with patient, doctor, date/time, token, and system-managed status information.
- Search by Patient, Doctor, or Token and filter by Appointment status.
- Status and token information are read-only.
- Does not display the visit reason / medical-condition description in the Admin appointment list.
- There are no actions to Call next, change statuses, reorder the queue, create tokens, cancel, or reschedule patient appointments.

SC-10 — Patient Accounts

Users: Admin Related FR: FR-7

- Displays the counts for Total patients, Active accounts, and Banned accounts.
- Search for patients by name, email address, or phone number.
- Displays patient information, contact details, registration date, appointment count, and account status.
- Active accounts display Ban account; Banned accounts display Restore access.
- Ban/Restore does not delete or change the status of existing appointments or tokens.

SC-11 — Doctors & Schedules

Users: Admin Related FR: FR-5

- Search for doctors by name, specialty, or department.
- Displays doctor information, Active/Inactive status, clinic days, clinic hours, and the number of Active appointments.
- Provides Add doctor, Edit, and Remove actions.
- The doctor form includes Doctor name, Specialty, Department, Room, Qualification, Short profile, Clinic days, and Appointment times.
- Remove in the prototype deactivates the doctor's visibility for booking; it does not permanently delete the record.

4. Modals and Overlay Components

The following are windows or panels opened from main screens. They are not counted as separate main screens.

Component ID	Name	Opened From	Function
MD-01	Demo credentials	SC-01	Displays Demo Patient and Demo Admin account information for system testing
MD-02	Book an appointment	SC-04	Displays doctor information, allows selection of an available date and time, accepts an optional Reason for visit of up to 500 characters, and confirms the booking
MD-03	Appointment confirmed	MD-02	Displays booking confirmation, token, doctor, date, time, and Waiting status, with navigation to Token queue
MD-04	Cancel appointment	SC-05	Confirms cancellation of the patient's appointment
MD-05	Reschedule appointment	SC-05	Selects a new date/time and edits Reason for visit; available for eligible appointments
MD-06	Schedule follow-up appointment	SC-05	Selects a date/time and reason for a follow-up. The prototype indicates that a new appointment is created while the original remains Completed.
MD-07	Add doctor / Edit doctor & schedule	SC-11	Form for adding or editing doctor information and clinic schedules

MD-08	Remove doctor confirmation / restriction	SC-11	Confirms removal of a doctor from the directory; if active appointments/tokens exist, a message prevents removal.
MD-09	Ban patient account	SC-10	Confirms account suspension and allows an optional reason to be entered.
MD-10	Notification panel	All screens after Sign in	Opened from the Notification bell. Displays notifications for the current user and the unread count, with Mark as read / Mark all as read actions.

5. Screen-to-FR Traceability

Functional Requirement	Supporting Screens / Components	Relationship
FR-1 View doctor information and availability	SC-03, SC-04, SC-11	Patient views doctors and bookable time slots; Admin manages doctor information/schedules.
FR-2 Book an appointment, submit a visit reason, and receive a token	SC-03, SC-04, SC-05; MD-02, MD-03	Booking starts from the doctor screen; the patient enters an optional reason and receives a Token when booking succeeds.
FR-3 View personal token and appointment status	SC-03, SC-05, SC-06	Displays the token and status only to the account owner.
FR-4 Cancel/reschedule/follow-up	SC-05; MD-04, MD-05, MD-06	Actions depend on appointment status, and the original record is retained.
FR-5 Manage doctor information and schedules	SC-11; MD-07, MD-08	Admin adds, edits, and deactivates doctor/schedule information.
FR-6 Read-only Admin dashboard and records	SC-08, SC-09	Admin monitors statistics and appointment records in read-only mode.
FR-7 Manage patient account access	SC-02, SC-10; MD-09	Admin performs Ban/Restore; patients with restricted access see the Restricted Account Access screen.
FR-8 Register, sign in, and manage patient profile	SC-01, SC-02, SC-07	Register, sign in, and manage the patient profile.
FR-9 Receive and manage in-app notifications	SC-03, SC-08 and Notification panel	Patient and Admin have a Notification bell, unread count, notification list, and Mark read actions.

6. Main User Journeys

User / Task	Screen Sequence
Patient: Register and book an appointment	SC-01 (Register) ⟶ SC-03 (Patient Overview) ⟶ SC-04 (Find a Doctor) ⟶ MD-02 (Book an appointment) ⟶ MD-03 (Appointment confirmed) ⟶ SC-06 (Token Queue)
Patient: Manage appointments	SC-03 (Patient Overview) ⟶ SC-05 (My Appointments) ⟶ MD-04 (Cancel) or MD-05 (Reschedule) or MD-06 (Follow-up)
Patient: Check queue status	SC-03 (Patient Overview) ⟶ SC-06 (Token Queue)
Admin: Monitor operations	SC-01 (Sign In) ⟶ SC-08 (Admin Dashboard) ⟶ SC-09 (Admin Appointments)
Admin: Manage patient accounts	SC-08 (Admin Dashboard) ⟶ SC-10 (Patient Accounts) ⟶ MD-09 (Ban) or Restore access
Admin: Manage doctors and schedules	SC-08 (Admin Dashboard) ⟶ SC-11 (Doctors & Schedules) ⟶ MD-07 (Add/Edit) or MD-08 (Remove)
